

Splish-Splash

Teamwork Thursday Water Games

Spray Bottle Freeze Tag

This game is simple and fun!

You'll need

- Spray Bottle
- Cold Water
- Open space outside

How to Play

- The person who is "it" chases everyone and sprays them one at a time. The person that is sprayed by the tagger freezes!
- Those not frozen try to get the frozen folks unfrozen by spraying them.
- If the tagger can freeze everyone at one time, they win!! Take turns being the freezer and just enjoy the cold water!

(Please be careful when you are in a shared space, and practice physical distancing from others in public.)

Ice Cube Escape

This game takes a little preparation.

The goal is to break apart the ice and get to the figure before the other person or team. This can be played inside and with as few as 2 people. You can freeze things in ice cube trays, or big bowls.

You'll Need

- Water
- Ice cube tray or big bowl
- Little plastic figurines or something small you can freeze
- Obscure tools to use to break apart the ice
- Freeze your figurine overnight before you play the game!

How to Play

- Take out your frozen figurines and give each team or person one.
- Get ready, set, START! Try to get your figurine out of the ice mold before the other team using all your tools and each other's strength!
