

My Good Neighbor (Choose 1 from each)

1. Explore your school
 - a. Show you're a good neighbor at school by helping to clean up the school or donating supplies
 - b. Show your school spirit. What are your school colors? Wear your school shirt or make your own
2. Discover your city or town
 - a. Take a walk & explore your town
 - b. Make a drawing or model of your town
3. See what makes your state special
 - a. Get to know your state. Learn 5 new facts to teach others.
 - B. Learn about a good neighbor from your state (a person who has made great contributions to your state.)

Board Game Design

1. Come up with an idea for your board game
Remember any board games you have played with or have at home. What makes them fun? Now, think of an idea for your own board game.
2. Design a spinner for your board game
Many board games have spinners to tell the player how many steps to go or what color to land on next. Make your own spinner for your game.
3. Test your game and make it better
Once your game is done, try playing it with siblings, friends or adults. What can you do to make it better?

Petals

1. Uses Resources Wisely
Learn about recycling and re-purposing.
Make a collage using old magazines or postcards.
Practice being resourceful—what can you reuse or repurpose in your home?
2. Friendly and Helpful
Helping Hands—trace your hand on construction paper three times and cut them out. Write “A Daisy was here” on them. Now, each time you do something helpful, leave your Daisy hand behind.
Thank you letters—Write a thank you letter to a teacher or person who has been really friendly and/or helpful to you. Let them know why they are getting a note and how much what they did meant to you.
